

Replicant - Issue #1089

Issue # 1065 (Closed): Make sure *we* provide all the corresponding source code.

Issue # 1059 (Closed): Find out if it's still possible to get the old images's corresponding source code.

Verify if Replicant 2.3 is fetchable

- Target version changed from 21 to Any version

#2 - 11/24/2015 06:06 PM - Romain Garbage

- File default.xml added

Hi,

As of 2015/11/24, Replicant 2.3 is not fetchable from my machine, as .repo/manifests/default.xml contains references to gitorious, which is now offline.

I tried to switch remote source from gitorious.org to git.replicant.us in .repo/manifests/default.xml (see attached), but "repo sync" fails:

```
% ../tools/repo sync
18:47:23 - 24/11/15
Fetching project CyanogenMod/android_external_ppp
Fetching projects: 0% (1/310) Fetching project CyanogenMod/android_external_protobuf
Fetching project CyanogenMod/android_hardware_ti_syslink
Fetching project CyanogenMod/android_device_samsung_epicmtd
Fetching projects: 1% (4/310) Fetching project CyanogenMod/android_packages_apps_Bluetooth
Fetching project CyanogenMod/android_external_jpeg
Fetching project CyanogenMod/android_external_v8
Fetching projects: 2% (7/310) Fetching project CyanogenMod/android_device_htc_liberty
Fetching project replicant/hardware_akmd_free
fatal: remote error: access denied or repository not exported: /replicant/hardware_akmd_free
```

Any fix/suggestion?

Romain
