History

To this day, replicant-4.2 fetches correctly, except for repositories that were removed from CyanogenMod recently:

```
Repository unavailable due to DMCA takedown.  
See the takedown notice for more details:  
https://github.com/github/dmca/blob/master/2014-12-22-Cambridge-Mobile.md.
```

Thankfully, we still have local copies of those.
