

Replicant - Issue #1849

Issue # 1980 (New): Meta bug for the SIM cards not being recognized

SIM card does not work after device encryption

12/01/2017 04:19 PM - Brigham Keys

Status:	New	Start date:	12/01/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SIM card not recognized	Estimated time:	0.00 hour
Target version:	Replicant 6.0	Spent time:	0.00 hour
Resolution:		Grant:	
Device:	Galaxy Tab 2 7.0 (P31xx)		

Description

I have the Samsung Galaxy Tab 2 and when I do a clean install of Replicant 6, and then encrypt the phone the SIM card no longer works. I replicated this issue multiple times.
