

Replicant - Issue #1857

sign-build script absent

12/30/2017 12:05 AM - Fil Lupin

Status:	Closed	Start date:	12/30/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Replicant 4.2	Spent time:	0.00 hour
Resolution:	wontfix	Grant:	
Device:			

Description

Signing image is not possible since script is not found anywhere in the repo.

```
./vendor/replicant/sign-build i9100
```

This seems to not depend on the device.
Do you know where we can find this script?

Do you know where we can find this script?

Do you still have the problem?

I am asking because I do not have this issue and, furthermore, you seem to had used this script before ([#1815](#)).

I am not sure I used this before, but trying again (without a full build), I found the script.

I got an error but the bug is a distinct issue so I will open a new issue.

Thank you.

- Status changed from New to Closed

- Resolution set to wontfix

This issue has been closed because Replicant 4.2 is no longer supported or maintained.
