Description

Good evening: Sorry if the question is for you or not, is that it is my first consultation and I am somewhat disoriented. Today I received my Note II and for more bad shadow does not detect the sim Vodafone of Spain, micro SIM, and I am quite green in this Replicant and also do not speak or understand English almost nothing, this is a translation, excuse me again. What can I do, since I have not found a similar question? I'm at your disposal. Receive greetings. Thank you.
