<b>Description</b>			
As reported in Issue <a href="#">#1878</a> , a discussion is open on the opportunity to stop bundling F-Droid into Replicant, until we find a way to make it FSDG-compliant.			
If we end up removing F-Droid from official Replicant releases, then RepWifi should integrate a way of updating itself.

- Status changed from New to Closed

- Resolution set to wontfix

There's a patch pending, to make the default system WiFi GUI work with external dongles:

<https://lists.osuosl.org/pipermail/replicant/2018-December/001752.html>

For this, I won't be maintaining RepWifi any longer, if the patch gets applied.

Closing this feature request.
