#### Description

Some of the supported/maintained devices use Replicant 4.2 on the pictures. It would be nice to update the pictures to Replicant 6.0.

It can easily be spotted as Replicant 6.0 has a clock instead of a google search bar.

- Assignee set to Fil Bergamo

I only own devices whose picture is already up to date..

But if anybody cares to upload updated pictures on this page, or to send them on the mailing list, then I will gladly submit a patch for the webpage.
