Description			
<p>libsamsung-RIL lacks support for RIL_REQUEST_ENTER_NETWORK_DEPERSONALIZATION, which appears to be the RIL request/response responsible for handling the network unlock procedure.</p> <p>As detailed on issues like #1840, a valid "SIM network unlock PIN" is rejected by Replicant with the error "SIM network unlock unsuccessful" because of this missing feature.</p>			
Subtasks:			
Feature # 2101: Document/implement the Replicant way of SIM unlock			New
