Assignee:		% Done:	0%
Category:	Website and wiki content	Estimated time:	0.00 hour
Target version:	Replicant 6.0	Spent time:	0.00 hour
Resolution:		Grant:	
Device:	Unknown	Type of work:	Communication (mails, contacting people, etc), Wiki editions
Description			

History

#1 - 01/28/2021 02:12 PM - Denis 'GNUtoo' Carikli

It was mentioned in [Replicant60BuildDependenciesInstallation](#), and I've removed it not to have too much information for users, however for maintenance purposes, we still need to track this bug: if versions of repo that don't update themselves exists we could also ship an old version of repo that doesn't update itself instead of relying on Guix to build a new version of repo that works on older distributions.

#2 - 03/26/2021 09:02 PM - _I3^ RELATIVISM

- *Type of work Communication (mails, contacting people, etc), Wiki editions added*

#3 - 05/18/2021 04:33 PM - Jonas Smedegaard

On progress here, please drop a note to 855846@bugs.debian.org to help the situation there as well.
