Target version:	Replicant 4.0	Spent time:	0.00 hour
Resolution:	fixed	Grant:	
Device:		Type of work:	
Description			
With FOSS RIL compiled into CM10/JB, unable to activate data due to SIM not loaded error.			

History

#1 - 01/31/2013 01:35 PM - Paul Kocialkowski

- Subject changed from JellyBean FOSS RIL Error to Samsung-RIL GPRS activation error
- Category changed from 87 to 51
- Target version set to Replicant 4.0

This happens as well on ICS: I should look into SIM init more deeply.

#2 - 02/10/2013 08:40 AM - Paul Kocialkowski

- Status changed from New to Feedback
- Resolution set to fixed

This should be fixed by now. Please give feedback about whether this keeps happening or not.

#3 - 04/21/2013 04:25 PM - Paul Kocialkowski

- Status changed from Feedback to Closed

It didn't happen anymore since my fix, I'll consider the issue closed/
