

Replicant - GTA04 - # 10

GTA04

Versions	type	Unit produced	Replicant compatible versions	SoC	Bootloader	Modem link	Modem audio links	Modem protocol	RAM
GTA04 A1	Modified single board computer		Not supported	?	Unsigned	?	?	?	?
GTA04 A2	first engineering boards	never sold	Not supported	?	Unsigned	?	?	?	?
GTA04 A3	second engineering boards	very few (20?)	Replicant 2.3.4.2 , modem audio not supported	DM3730	Unsigned, free software, downstream	USB	* Software routing	AT, QMI	512M
GTA04 A4	release		Replicant 2.3.4.2	DM3730	Unsigned, free software, downstream	USB	* Hardware routing * Software routing	AT, QMI	512M
GTA04 A5	release		?	DM3730	Unsigned, free software, downstream	USB	* Hardware routing * Software routing	AT, QMI	?

TODO

- Finish populating the table of variants from from info from <http://projects.goldelico.com/p/gta04-main/page/Versions/>
- Find the number of unit produced
- finish populating the infos
- Check if > A5 exist or if A5 variants with 1G RAM exist, check linux dts for that too
